

VI. Assessment and monitoring of pupils' level of knowledge of the organizational unit: Private Primary School

- continuous verbal assessment of Year 1 -Year 3 pupils (monitoring of educational and personal development of a student), classification of Year 4- Year 9 pupils,
- quarterly issue of Evaluation sheets aimed at subjects taught (assessment of level of knowledge and skills),
- quarterly monitoring of level of knowledge through tests (emphasis on the observation with the requirements of the respective school subject),
- monitoring of the level of knowledge of intellectually gifted pupils through testing method with the emphasis on extension teaching,
- monitoring of acquired English vocabulary within the scope of natural sciences and educational subjects through CLIL method via testing

VII. Programmes and projects of modern international education, innovation trends in education

- teaching of mathematics according to the method of Prof. RNDr. Milan Hejný, CSc.,
- Project of experimental verification „ Effectiveness of Jolly Phonics methodology in primary education“ under the auspices of National Institute for Education in Bratislava

VIII. Intellectually gifted children

Together with the Centre of Pedagogic-Psychological Counselling, Zuzkin Park 10, Košice, the school provides the option of **integrated form of education of intellectually gifted children**. Centre of Pedagogic-Psychological Counselling provides the intellectually gifted students with specialized special-pedagogic and psychologic care. Early diagnostics of intellectually gifted children is secured by the presence of a psychologist during the admission of children to Year 1 of primary school. Each integrated pupil is educated according to **Individual educational programme** aimed at extensive knowledge, elaborated pursuant to Educational plans for individually integrated intellectually gifted pupils in Year 1-Year 9 of primary school and Amendments to Curriculum for intellectually gifted pupils in Year 1-Year 9 of primary school. *During lessons we actively use complementary study materials and worksheets – alternative worksheets, school library, PC classroom, interactive board and other compensation aids.*
